DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 2, 3, 4, 5 and 10 rejected under 35 U.S.C. 102(b) as being anticpated by USP 6,403,109 to Storet (Storet).

Storet teaches a transparent perfume composition in the form of an O/W or W/O emulsion, said emulsion containing from 5-50% by weight of dispersed phase and 50-95% of continuous phase. The viscosity of the composition is less than 10 Pa. s. See claims. The density of the Storet composition is inherently the same as that instantly claimed since the components are the same and used in the same amounts.

Allowable Subject Matter

- 3. Claim 11 is allowed.
- 4. Claims 6-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 5. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or suggest a composition such as instantly claimed wherein a volatile fluorinated compound is used in the oil phase.
